Personal Profile

Haren Upadhayay is a successful IT graduate with a friendly, outgoing personality. Key transferable skills include excellent communication, people, organizational, time management and customer service skills. I am adaptable and have a common-sense approach when dealing with people and situations. Particularly I am adapt at balancing conflicting priorities and demands, always keen to give commitment and loyalty to my employer. I take an honest approach to people that I come into contact with and am well regarded for my reliability, punctuality and willingness to communicate with those around me. Always happy to work hard and assist my colleagues with tasks, playing an active role as a team member.

Currently enrolled in a Digital Skills Bootcamp at JustIT Training. Aiming to build upon my knowledge gained from my time at university as well as filling in any gaps that might have been left and pulling everything together.

Would like to work as a Junior Developer to build upon what I have learned and gain more experience to specialise further.
